

## WINE LIST

### **Note to our guest**

On the 1<sup>st</sup> of April 2010, The Indonesia Government replaced the luxury tax on imported alcoholic beverage with an excise tax. The old luxury import tax cost consumers between 40% and 150% of the declared value of the alcohol beverage. The new increased excise tax varieties between 140% and 600% depending on the type and cost of the beverage of choice. Unfortunately and understandably this new tax leave everyone frustrated and in some cases very upset. This new tax does not just affect imported alcoholic beverage ; it has also been applied to all locally produced alcoholic-wines, beers, etc.

This increase in tax is being seriously protested by alcoholic beverage product, hotels, restaurant, and the national tourism sector. We are hoping that the voices of reason will eventually prevail and that this situation will be rectified in the foreseeable future.

We at Munduk Moding Plantation Nature Resort and Spa try to manage this situation as best as we can and apologize for the price that must be changed in order to pay the exorbitant excise tax. We hope this will not leave you with a bad impression of Bali.

**Thank you for your understanding.**
